International Institute of Online Learning | iiol.online

Why Join AI BEGINNER?

AI tools are no longer optional - they're becoming part of everyday study and work. This beginner-friendly program removes the confusion and gets you comfortable using ChatGPT, Canva AI and similar tools with confidence - no technical background needed. By the end, you'll be able to create content, images, videos and presentations using AI.

Who Can Join

- School & College Students
- Working Professionals
- Homemakers & Beginners
- Anyone new to AI tools
- Parents wanting to guide their kids on AI

Program Highlights

- Zero Theory - 100% Practical, Hands-On Learning
- No Technical or Coding Background Needed
- Learn to Create Images, Videos & Presentations with AI
- Small Batch, Mentor-Led Live Sessions
- Certificate of Completion

Tools You Will Use

- ChatGPT
- Canva AI
- Gemini
- Canva AI Video
- Canva AI Presentations
- Basic AI Image Tools

Day-by-Day Curriculum

DAY 1	Welcome to AI + The AI Tools Landscape • What is AI, in plain language - how tools like ChatGPT actually work • Overview of key tools: ChatGPT, Gemini, Canva AI • Setting up your accounts and first hands-on exploration
DAY 2	Prompt Writing Basics • Anatomy of a good prompt: context, instruction, format • Live demo: weak prompt vs. strong prompt, side by side • Practice: writing your first 10 prompts
DAY 3	Prompt Writing Practice • Common beginner mistakes with prompts • Refining a prompt step-by-step to get a better result • Hands-on: solve 5 real tasks using only prompts
DAY 4	AI Image Generation with Canva AI • Introduction to Canva AI's image generation tools • Writing prompts for images: style, mood, composition • Hands-on: generate images for a sample project
DAY 5	AI in Daily Life & Study - Week 1 Recap • Using AI to summarize notes, plan schedules & study smarter • Using AI safely - what to double-check, what not to trust blindly • Quick recap quiz + doubt-clearing session
DAY 6	AI Video Tools Introduction • Overview of Canva AI's video creation features • Turning a script or idea into a short AI-assisted video • Hands-on: storyboard your first AI video
DAY 7	AI Video Creation - Hands-On • Building a complete short video using AI tools • Adding text, music & transitions • Peer review of videos created in class
DAY 8	AI Presentations - Content & Design • Generating presentation content & structure with AI • AI-assisted slide design and visual consistency • Hands-on: outline a presentation using AI
DAY 9	AI Presentations - Hands-On Build • Building a complete presentation deck using AI tools start to finish • Polishing content, design & flow • Practice presenting your AI-built deck
DAY 10	Portfolio Project & Certification • Final Project: build one complete presentation + one image/video using AI • Showcase your work to the batch • Certificate distribution & Q&A

Get Certified

On successful completion, you will receive IIOL's **AI Mastery: Level 1 Certificate**, along with your own AI-built presentation and image/video as proof of skill.
